No.: 510/KT

Yen Bai, October 19, 2026

*Regarding the explanation for the 10%
difference in after-tax profit compared
to the same period last year in the
combined financial statements*

Dear:

- State Securities Commission;
- Hanoi Stock Exchange (HNX).

In accordance with Clause 4, Article 14, Chapter III of Circular 96/2020/TT-BTC issued by the Ministry of Finance on November 16, 2020, Yenbai Joint - Stocks Forest Agricultural Products and Foodstuff Company would like to explain the reasons for the fluctuation in after-tax profit this period compared to the same period last year as follows:

The combined financial statements of the Company for the fourth quarter of the 2025-2026 fiscal year (from July 1, 2026 to September 30, 2026) is as follows:

- | | |
|--|--------------------|
| - Net profit after corporate income tax for the :
fourth quarter of the 2025-2026 fiscal year | 17.948.266.281 VND |
| - Net profit after corporate income tax for the :
fourth quarter of the 2024-2025 fiscal year | 27.384.249.791 VND |
| - The difference is decreasing. : | 34 % |

Reason:

- Cassava starch products are mainly consumed during the first 9 months of the crop year.
- The cost of base paper per unit increased compared to the same period last year, while selling prices tended to decrease.

The above reasons led to a decrease in after-tax profit on the combined financial statements for the same period this year compared to the same period last year.

Best regards!

Address: No. 279, Nguyen Phuc Street, Yen Bai Ward, Lao Cai Province, Vietnam

INTERIM COMBINED FINANCIAL STATEMENTS

For the fiscal year ending September 30, 2026

Notes to the Interim Combined Financial Statements (continued)

The Company applies the Vietnamese Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Minister of Finance and circulars guiding the implementation of accounting standards and regimes of the Ministry of Finance.

2. Statement of compliance

The Board of Managements ensures that it has complied with the requirements of the Accounting Standards and the Vietnamese Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Minister of Finance as well as the circulars guiding the implementation of accounting standards and regimes of the Ministry of Finance in preparing the Combined Financial Statements.

IV. APPLICABLE ACCOUNTING POLICIES**1. Cash and cash equivalents**

Cash and cash equivalents include cash, bank deposits, cash in transit and short-term investments with due date or maturity not exceeding 3 months from the date of purchase, which are readily convertible to identified amounts of cash and are subject to an insignificant risk of change in value.

2. Principles of accounting for receivables

Receivables are accounted for using the cost and provisions principle.

Provision for doubtful debts is made for each doubtful debt based on the age of overdue debts or the expected loss that may occur, specifically as follows:

- For overdue receivables:
 - 30% of the value for overdue receivables from 6 months to less than 1 year.
 - 50% of the value for receivables overdue from 1 year to less than 2 years.
 - 70% of the value for receivables overdue from 2 years to less than 3 years.
 - 100% of value for receivables overdue for more than 3 years.
- For receivables that are not overdue but are unlikely to be recovered: establish provisions based on expected loss.

3. Principles of inventories recognition

Inventories are recognized at cost. The cost of inventories comprises purchase costs, conversion costs and other directly attributable costs incurred in bringing the inventories to their present location and condition.

The cost of inventories is calculated using the first-in, first-out method and is accounted for using the perpetual inventory method.

Provisions for decline in value of inventories are recognized when the cost is greater than the net realizable value. Net realizable value is the estimated selling price of the inventories less the estimated costs of completion and the estimated costs necessary to make the sale.

4. Principles of recording and depreciating fixed assets

Fixed assets are stated at cost less accumulated depreciation. The cost of fixed assets includes all costs incurred by the Company to acquire the fixed assets up to the date when the assets are ready for use. Expenditures incurred after initial recognition are only recorded as an increase in the cost

of fixed assets if it is certain that these costs will increase future economic benefits from the use of the assets. Expenditures that do not satisfy the above conditions are recorded as expenses in the period.

When fixed assets are sold or disposed of, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is included as income or expense for the period.

For the machinery and equipment of Van Yen Cassava Project No. 2, units of production depreciation method is applied. The design capacity of the project is 110.000 tons of products (100 tons of products/day, production 100 days/year and implementation within 11 years).

The Company's intangible fixed assets are computer software. The original cost of computer software is all the costs that the Company has incurred up to the time the software is put into use. At the time of preparing this report, the computer software has been fully depreciated but is still in use.

The remaining fixed assets are depreciated using the straight-line method over their estimated useful lives. The depreciation years for the various types of fixed assets are as follows:

<u>Fixed assets</u>	<u>Years</u>
Houses, buildings	5 - 25
Machinery and equipment	5 - 15
Means of transport, transmission	6 - 10
Management equipment and tools	3 - 10

5. Principles of accounting for prepaid expenses

Prepaid expenses are the cost of serving several production and business periods, allocated to production and business periods up to 12 months and over 12 months.

6. Principles of accounting for payables

Payables are recorded according to invoices and documents, and are monitored in detail by payment term, payable entity, origin currency and other factors according to the management needs of the enterprise.

Supplier payables include commercial payables arising from transactions of purchasing goods, services, assets and the seller is an independent entity from the buyer. These payables include payables when importing through a trustee (in entrusted import transactions).

Other payables include non-commercial payables, non-related to the purchase, sale or provision of goods and services.

7. Principles of recording loans and financial lease liabilities

Reflects the loans, financial lease liabilities and the payment status of the company's loans and financial lease liabilities.

Amounts with repayment period of more than 12 months from the date of preparation of Financial Statements are presented as long-term loans and long-term financial lease liabilities. Amounts due for repayment within the next 12 months from the date of preparation of Financial Statements are presented as short-term loans and short-term financial lease liabilities for payment plan.

Notes to the Interim Combined Financial Statements (continued)

8. Principles of recognition and capitalization of borrowing costs

Borrowing costs are recognized as expenses incurred in the period.

9. Principle of recording expenses payable

Expenses payable are recorded based on reasonable estimates of the amounts payable for goods and services used during the period.

10. Principles and methods of recording provisions for payables

Provisions for payables are recorded based on reasonable estimates of the amount of money spent on production and business activities during the period that are planned and occur regularly.

11. Principle of owner's equity recognition

The Company's Owner's equity includes:

- Contributed capital: recorded according to the actual amount invested by shareholders.
- Capital surplus: difference due to issuing shares at a price higher than par value.

Funds are set aside and used in accordance with the Company Charter and resolutions of the General Meeting of Shareholders.

Undistributed profit reflect the Company's business results after corporate income tax and the Company's profit distribution or loss handling situation.

Exchange rate differences arising during the period and exchange rate differences due to revaluation of foreign currency items at the end of the period are recorded in income or expenses during the period. Exchange rate differences due to revaluation of foreign currency balances at the end of the period are implemented according to the guidance of Circular 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance.

Exchange rates used for conversion as of September 30, 2026: BIDV: 25.780 VND/USD; Techcombank: 25.780 VND/USD; Vietinbank: 25.595 VND/USD; Vietcombank: 25.780 VND/USD; BIDV: 3.799 VND/CNY.

12. Principles and methods of revenue recognition

When selling goods, finished products, revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer and no significant uncertainties remain regarding the collection of payment, associated costs or the possible return of goods.

When providing services, revenue is recognized when there are no significant uncertainties remain regarding the collection of payment or associated costs.

Interest is recognized on a time and interest rate basis.

13. Principles of accounting for cost of goods sold

Cost of goods sold reflects the cost value of products, goods and services.

14. Principles of financial expenses accounting

Reflects financial operating expenses including expenses or losses related to financial investment activities, lending and borrowing costs, costs of capital contribution to joint ventures and associations, short-term securities transfer losses, securities transaction costs; Provisions for decline in value of trading securities, provisions for investment losses in other entities, losses arising from selling foreign currencies, exchange rate losses...

INTERIM COMBINED FINANCIAL STATEMENTS

For the fiscal year ending September 30, 2026

Notes to the Interim Combined Financial Statements (continued)

15. Principles of accounting for selling expenses and general administration expenses

Selling expenses reflect actual costs incurred in the process of selling products, goods, and providing services, including costs of offering, introducing products, advertising products, sales commissions, product and goods warranty costs (except construction activities), preservation, packaging, transportation costs, etc.

General administration expenses reflect the general management costs of the corporate, including costs for salaries of employees in the business management department (salaries, wages, provisions, etc.); social insurance, health insurance, union fees, unemployment insurance for business management employees; costs of office materials, labor tools, depreciation of fixed assets used for business management; land rent, business license tax; provision for bad debts; outsourced services (electricity, water, telephone, fax, property insurance, fire and explosion insurance, etc.); other cash expenses (reception, customer conferences, etc.).

16. Principles and methods of recording current corporate income tax expenses

Taxable income from agricultural production and processing activities at cassava product manufacturing and processing factories in Van Yen district, Yen Bai province (in a difficult social-economic area) is eligible for tax incentives with a corporate income tax rate of 10% throughout the entire operating period (Applicable from January 1, 2015).

For the remaining projects, the Company is obliged to pay corporate income tax at a rate of 20%.

Corporate income tax expense for the year is current corporate income tax, calculated based on taxable income for the year at the applicable tax rate.

17. Financial assets***Classification of financial assets***

The Company classifies its financial assets into the following groups: financial assets at fair value through the Income statement, investments held to maturity, loans and receivables, and available-for-sale financial assets. The classification of these financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Financial assets are recorded at fair value through the Income statement

Financial assets are classified as measured at fair value through the Income statement if they are held for trading or designated as such at fair value through the Income statement upon initial recognition.

Financial assets are classified as held for trading securities if:

- Purchased or created primarily for the purpose of resale in the short term;
- The Company intends to hold for the purpose of short-term profit;
- Derivative financial instruments (except for derivative financial instruments that are identified as a financial guarantee contract or a designated and effective hedging instrument).

Held to maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the intention and ability to hold to maturity.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments

and are not listed on an active market.

Financial assets available for sale

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or that are not classified as financial assets at fair value through Income statement, held-to-maturity investments, or loans and receivables.

Initial book value of financial assets

Financial assets are recognised at the date of acquisition and derecognised at the date of sale. At the time of initial recognition, financial assets are measured at their purchase price/issuance costs plus any other costs directly attributable to the acquisition or issue of the financial asset.

18. Financial liabilities and equity instruments

Financial instruments are classified as financial liabilities or equity instruments upon initial recognition in accordance with the substance and definitions of financial liabilities and equity instruments.

Financial liabilities

The Company classifies financial liabilities into groups: financial liabilities recorded at fair value through the Income Statement, financial liabilities determined at amortized cost. The classification of financial liabilities depends on the nature and purpose of the financial liability and is determined at the time of initial recognition.

Financial liabilities are recorded at fair value through the Income statement.

A financial liability is classified as measured at fair value through the Income statement if it is held for trading or designated as such at fair value through the Income statement upon initial recognition.

Financial liabilities are classified as held for trading securities if:

- Issued or created primarily for the purpose of repurchase in the short term;
- The Company intends to hold for the purpose of short-term profit;
- Derivative financial instruments (except for derivative financial instruments that are identified as a financial guarantee contract or a designated and effective hedging instrument).

Financial liabilities are measured at amortized cost.

Financial liabilities are measured at amortised cost, which is the amount at which the financial liability is initially recognised less principal repayments, total or less the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and less any reduction (directly or through the use of an provision account) for impairment or uncollectibility.

The effective interest method is a method of calculating the amortized cost of a financial liability or group of financial liabilities and allocating interest income or expense over the relevant period. The effective interest rate is the rate at which estimated future cash flows that will be paid or received over the expected life cycle of the financial instrument or, if appropriate, are discounted to the net present carrying amount of the financial liability.

Initial book value of financial liability

At initial recognition, financial liabilities are measured at issue price total any costs directly attributable to the issue of the financial liability.

INTERIM COMBINED FINANCIAL STATEMENTS

For the fiscal year ending September 30, 2026

Notes to the Interim Combined Financial Statements (continued)

Equity instruments

An equity instrument is a contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Complex financial instruments

Complex financial instruments issued by the Company are classified into liability components and equity components according to the contractual agreement and the definition of financial liabilities and equity instruments.

The equity component is determined as the carrying amount of the financial instrument after deducting the fair value of the liability component. The value of derivatives (such as put options) embedded in the complex financial instrument that are not part of the equity component (such as equity conversion options) is presented in the liability component. The sum of the carrying amounts for the liability and equity components on initial recognition is equal to the fair value of the financial instrument.

19. Offsetting of financial instruments

Financial assets and financial liabilities are offset against each other and presented at net value in the Balance Sheet when and only when the Company:

- Has a legal right to offset the amount recorded; and
- Intend to settle on a net basis or to realise the asset and settle the liability simultaneously.

20. Report by segment

A business segment is a distinguishable component that is engaged in providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

21. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions.
